

Supplier Diversity Statement

Sustainable Tech 4 Good Group Ltd & Veritas Digital Services Ltd seek, wherever possible, to encourage diversity in our suppliers. We seek to support the widest possible demographic of need in the people and charities we reach with devices for digital inclusion. Our suppliers are also our business clients who are looking to support their local communities with their surplus tech – we actively seek to reach as diverse a range of companies as possible; diverse companies are often those who are aligned with our values and who actively look to work with us.
